### How iptt's POC system works

iptt is focused on delivering professional two-way communication.

iptt is committed to customer support for resellers and end users.

iptt is obsessed with quality.

iptt does not operate a ticketing system.

iptt offers remote technical support is free of charge (FOC).

iptt have an excellent product range with handheld and mobile POC terminals.

iptt listen and deliver. With more products being added to cater for customer feedback.

iptt's solution is currently used in these industries: construction, events, transport, local councils, parking, retail, security and enforcement.

iptt only sells to resellers.
